

Please include the following items when writing new lesson.

### Lesson Plan Checklist:

**Overview:** A brief description and a summary of the goals and outcomes of how this lesson fits into the context of the unit.

- Standards:** Use the appropriate standards for your content. This includes the Common Core (Reading and Writing) *Literacy Standards for Science, SS/History and Technical Subjects*.
- Learning Targets:** These can refer to what the student is going to learn by the end of the lesson or unit. They are stated in student-friendly language.

### Assessments:

- Formative Assessments:** These are ongoing assessments which provide information to guide teaching and learning for improving learning and performance.

### Learning Sequence/Agenda:

- Teacher Actions:** What are you teaching and how are you pacing this lesson? Is it whole group or small group instruction?
  - Opening
  - Be sure to add as many steps as necessary using protocols and strategies.
  - Be sure to add what small groups are doing so that you utilize all teachers and teacher aide support in the classroom during this lesson.
  - Closure
- Student Actions / Protocols/Strategies:** These are processing strategies that help students build a skill. For instance, many strategies provide a structure in that will help students think, reflect, and work together effectively. These strategies should be aligned with the learning outcomes (standards).
- Materials, Resources and Text Sets:** These include all materials you will need to teach this unit. The text sets should include a range of complex texts.
- Reflection:** After teaching the lesson, what notes can you add regarding changes to consider the next time you teach it.
