Remedial responses are designed to correct the problem behavior, prevent another occurrence of the behavior, eliminate the hostile environment, and protect the target of the act(s). Appropriate remedial measures will take into consideration the nature and severity of the offending student's behavior(s), the developmental age of the student, the previous disciplinary record of the student and other extenuating circumstances, and the impact the student's behaviors had on the individual who was physically injured and/or emotionally harmed. The Building Administrator or his or her designee must notify the appropriate local law enforcement agency of those Code violations that may constitute a crime and substantially affect the order or security of a school as soon as practical, but in no event later than the close of business the day the Building Administrator or designee learns of the violation. IX. DISCIPLINARY PROCEDURES AND PENALTIES

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

Disciplinary action, when necessary, will be firm, fair and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

1. The student's age.
2. The nature of the offense and the circumstances which led to the offense.
3. The student's prior disciplinary record.
4. The effectiveness of other forms of discipline.
5. Information from parents, teachers and/or others, as appropriate.
6. Student disability or religious/sacred institution.
7. The effects of the inappropriate behavior on the rights, well-being and teaching of other students.
8. Other extenuating circumstances.

If the conduct of a student is related to a disability or suspected disability, it is possible the student shall be referred to the Committee on Special Education and discipline, if warranted, shall be administered consistent with the separate requirements of this Code of Conduct for disciplining students with a disability. A student identified as having a disability shall not be disciplined for behavior related to his/her disability.

A. PENALTIES

Students who are found to have violated the District's Code of Conduct may be subject to the following penalties, either alone or in combination with one another. The school personnel identified after each penalty are authorized to impose that penalty, consistent with the student's right to due process.

1. Verbal warning — any member of the District staff.

2. Written warning.
3. Written notification to parent — Teachers, Building Administrator, Superintendent.
4. Detention — Teachers, Building Administrator, Superintendent.
5. Device Confiscated — Teachers, Administrators, Superintendent
6. Suspension from transportation — Building Administrator, Director of Transportation.
7. Suspension from athletic participation — Building Administrator, Director of Health, Physical Education and Interscholastic Athletics, Superintendent.
8. Suspension from social or extracurricular activities — Building Administrator, Superintendent.
9. Suspension of other privileges — Building Administrator, Superintendent.
10. Saturday Detention (Middle/High School) — Building Administrator, Superintendent.
11. District will work with local law enforcement agencies and may press charges — Superintendent, Building Administrators.
12. Genesee County Youth Court--Building Administrator, Superintendent.
13. Removal from classroom — Teachers, Building Administrator, Superintendent.
14. Short-term (five days or less) suspension from school — Building Administrator, Superintendent.
15. Long-term (more than five days) suspension from school — Superintendent.
16. Permanent suspension from school — Superintendent.

The length of time for the above penalties will be determined by the Administration using the principles of progressive discipline and in accordance with the provisions of the New York State Education Law

B. PROCEDURES

The amount of due process a student is entitled to before a penalty is imposed will depend on the type of penalty being imposed. In all cases, regardless of the penalty imposed, the school personnel authorized to impose the penalty must let the student know what misconduct the student is alleged to have committed, and must investigate, to the extent necessary, the facts surrounding the alleged misconduct. All students will have an opportunity, at the appropriate time, to present their version of the facts to the school personnel imposing the disciplinary penalty in connection with the imposition of the penalty.

Students who are given penalties other than a verbal warning, written warning, written notification to their parents or detention are entitled to additional rights before the penalty is imposed. These additional rights are explained below as follows.

1. Detention

Teachers, Building Administrators and the Superintendent may use after school detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate. If detention is used as a penalty, parents may be notified.

2. Suspension from transportation

If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the Director of Transportation's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the Building Administrator and the Director of Transportation. In such cases, the student's parents will become responsible for seeing that his or her child gets to and from school safely. Should the suspension from transportation amount to a suspension from attendance, the District will make appropriate arrangements to provide for the student's education if the student is of compulsory attendance age.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law Section 3214. However, the student and the student's parents will be provided with a reasonable opportunity for an informal conference with the Building Administrator and Director of Transportation to discuss the conduct and the penalty involved.

3. Suspension from athletic participation, extra-curricular activities and other privileges.

A student subjected to a suspension from athletic participation, extra-curricular activities or other privileges is not entitled to a full hearing pursuant to Education Law section 3214. However, the student and the student's

parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the suspension to discuss the conduct and the penalty involved.

4. In-School Suspension/Saturday Detention

The Board recognizes that the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes the Building Administrator and the Superintendent to place students who would otherwise be suspended from school as the result of a Code of Conduct violation in "in-school suspension" (Middle School only). "In-school suspension" is the temporary removal of students from the classroom and their placement in another area of the school building designated for such a suspension where students will receive substantially equivalent, alternative education.

Saturday Detention (High School only) is an alternative consequence to "In-school Suspension." Saturday Detention does not remove students from the classroom and is considered an equivalent to "in-school suspension." Students who do not attend Saturday Detention will be referred to Genesee County Youth Court. The goal of Youth Court is to improve youth citizenship skills and decrease problematic behavior.

A student subjected to an in-school suspension/Saturday Detention is not entitled to a full hearing pursuant to Education Law Section 3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the in-school suspension to discuss the conduct and the penalty involved.

5. Pressing Charges

Based on the offense, the District may seek to press charges.

6. Teacher Removal of Disruptive Students (2 Days)

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In many instances the classroom teacher can control disruptive student behavior by using good management techniques. On occasion, a student's behavior may become disruptive. For purposes of this Code of Conduct, a disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions or repeatedly violates the teacher's classroom behavior rules.

A classroom teacher may remove a student from class for up to two (2) days if the teacher determines that the student is disruptive. The removal from class applies to the class of the removing teacher only.

If the disruptive student does not pose a danger or ongoing threat of disruption to the academic process, the teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events before the student is removed. Only after the informal discussion may a teacher remove a student from class.

If the student does pose a danger of ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within one full school day.

The teacher must complete a District-established referral form and meet with the Building Administrator as soon as possible, but not later than the end of the school day, to explain the circumstances of the removal and to present the referral forms. If the Building Administrator is not available by the end of the same school day, the teacher must leave the form with the secretary and meet with the Building Administrator prior to the beginning of classes on the next school day.

Within one school day after the student's removal, the Building Administrator must notify the student's parent, in writing, that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the Building Administrator or the Building Administrator's designee to discuss the reasons for the removal and behavior modifications to remedy the cause for the removal. The notice must be provided to the last known address for the parent by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents.

If at the informal meeting the student denies the charges, the Building Administrator or the Building Administrator's designee must explain why the student was removed and give the student and the student's parent a chance to present the student's version of the relevant events. The informal meeting must be held within 48 hours of the student's removal. The timing of the informal meeting may be extended by mutual agreement of the parent and Building Administrator.

The Building Administrator or the Building Administrator's designee may overturn the removal of the student from class only if the Building Administrator finds any one of the following:

1. The charges against the student are not supported by the substantial evidence.
2. The student's removal is otherwise in violation of law, including the District's Code of Conduct.
3. The conduct warrants suspension from school pursuant to Education Law Section 3214 and a suspension will be imposed.

The Building Administrator or Building Administrator's designee must make a determination as to whether to overturn the removal before the close of business on the day after the day of the informal hearing. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the Building Administrator makes a final determination, or the period of removal expires, whichever is less. Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until he or she is permitted to return to the classroom. Removal of a student with a disability may, under certain circumstances, constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the Building Administrator or the Chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

Each teacher must keep a complete log (on a District provided form) for all cases of removal of students from their class. The Building Administrator must keep a log of all removals of students from class.

Nothing in this section of the Code of Conduct abridges the customary right or responsibility of a Building Administrator to suspend a student. Further, nothing in this Code abridges the customary right and responsibility of a teacher to manage student behavior in the classroom. Short-term, time honored classroom management techniques such as "time out" in a classroom or in an administrator's office or sending students briefly into the hallway are not considered removals from class. The removal process should not become a substitute for good classroom management.

7. Suspension from School

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others. The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the Superintendent and the Building Administrator.

Any staff member may recommend to the Superintendent or the Principal/Building Administrator that a student be suspended. All staff members must immediately report and refer a violent student to the Building Administrator or the Superintendent for the violation of the Code of Conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension.

Upon receiving a recommendation or referral for suspension, or processing a case for suspension, the Building Administrator or the Superintendent shall gather the facts relevant to the matter and record them for subsequent presentation if necessary.

a. Short term (five days or less) Suspension from school.

When the Building Administrator or Superintendent (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law section 3214(3), the suspending authority must immediately notify the student verbally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parents verbally and in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonable calculated to assure receipt of the notice within 24 hours of the decision to propose suspension at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parent of the right to request an immediate informal conference with the Building Administrator. Both the notice and informal conference shall be in the dominant language or mode of communication used by the parents. At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as the Building Administrator may establish.

The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonable practicable.

After the conference, the Building Administrator shall promptly advise the parents in writing of his or her decision. The Building Administrator shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the Board of Education with the District Clerk within ten (10) business days of the date of the decision; unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner of Education within 30 days of the decision.

b. Long term (more than five days) Suspension from School.

When the Building Administrator or Superintendent determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her and the right to present witnesses and other evidence on his or her behalf.

The Superintendent shall personally hear and determine the proceeding or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the Superintendent. The report of the hearing officer shall be advisory only, and the Superintendent may accept all or any part thereof.

An appeal of the decision of the Superintendent may be made to the board that will make its decision based solely upon the record before it. All appeals to the Board must be in writing and submitted to the District Clerk within ten (10) business days of the date of the Superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The Board may adopt in whole or in part the decision of the Superintendent. Final decisions of the Board may be appealed to the Commissioner of Education within thirty (30) days of the decision.

c. Permanent suspension

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property or attending a school function.

C. MINIMUM PERIODS OF SUSPENSION

1. Students who bring a firearm to school

Any student other than a student with a disability, found guilty of bringing a firearm onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law Section 3214. The Superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the following:

- a. The student's age.
- b. The student's grade in school.
- c. The student's performance in school.
- d. The student's prior disciplinary record.
- e. The Superintendent's belief that other forms of discipline may be more effective.
- f. Input from parents, teachers and/or others.
- g. Other extenuating circumstances.

The Superintendent is required to refer the following students to the County Attorney (or the county presentment agency if not the county attorney) for a juvenile delinquency proceeding before the Family Court:

- a. Any student under the age of 16 who is found to have brought a firearm to school, or
- b. Any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law.

The Superintendent is required to refer students over the age of 16 or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities. A student 14 or 15 years old who possesses a firearm, machine-gun or loaded firearm (as defined in section 265.00 (14) of the Penal Law) qualifies for juvenile offender status under section 1.20 of the Criminal Procedure Law.

A student with a disability may be suspended only in accordance with the requirements of state and federal law.

2. Students who commit violent acts other than bringing a firearm to school.

Any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a firearm onto school property, shall be subject to suspension from school for at least five days.

If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension.

The Superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

3. Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interfering with the teacher's authority over the classroom.

Any student, other than a student with a disability, who engages in conduct which results in the student being removed from the classroom by teacher(s) on four or more occasions during a semester, shall be suspended from school for a least five days.

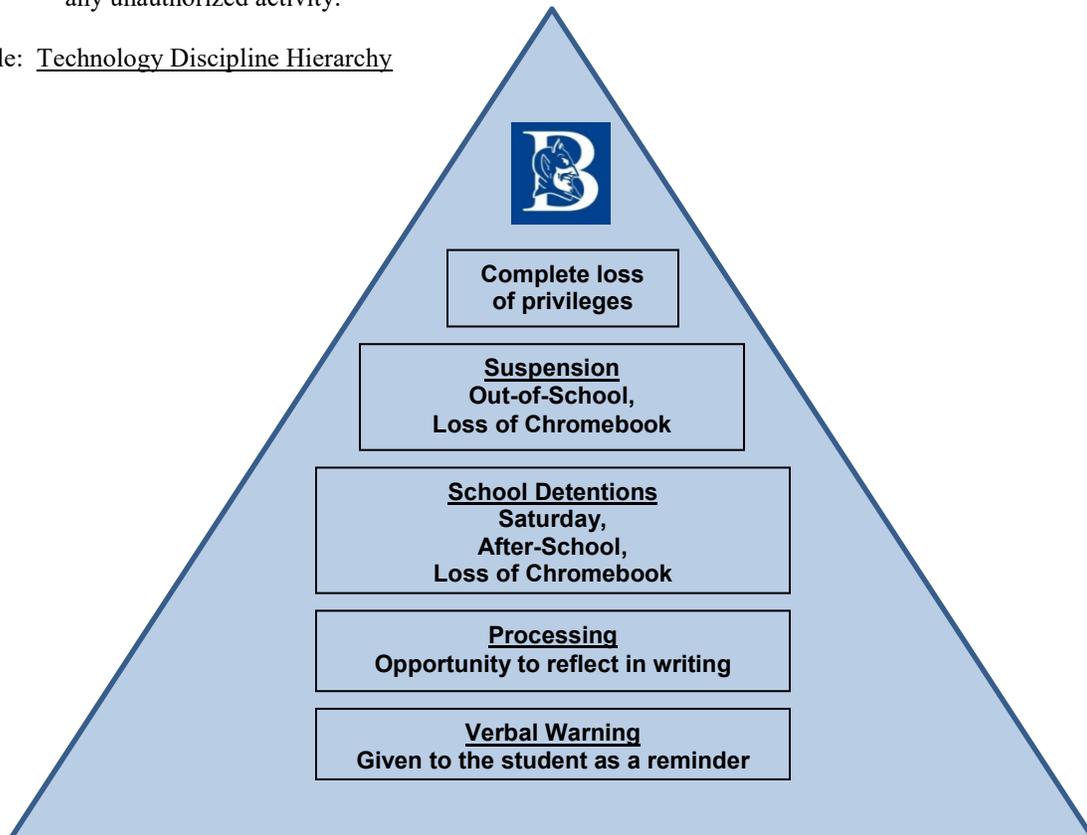

If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a firearm.

X. Technology Discipline

The discipline policies at each school have been revised to encompass the one-to-one environment. The privilege of having a computer comes with a new set of responsibilities and new consequences. The Technology Discipline Hierarchy has a common structure District-wide. These are explained in this section. Please reference the materials specific to each building for specific details or contact the school directly.

1. The Technology Discipline Hierarchy applies to all BCSD technology, not just Chromebook computers. This includes, but is not limited to Interactive Display Boards, Promethean Boards, document cameras, projectors, desktop computers, printers, mice, digital cameras, etc.
2. Discipline is progressive. Low-level, first-time infractions will have a lesser consequence than infractions that are repetitive or more serious in nature.
3. Classroom interventions will be the first level of discipline. This includes verbal warnings, seating changes, and teacher contact with home.
4. Discipline progresses in levels. Consequences include in-school detentions, after-school detentions, assignments that re-teach or reinforce correct behaviors, restricted computer access, office referrals, and suspensions.
5. Compliance checks may be conducted on a student's computer at any time. These may be school-wide checks or conducted individually due to suspicion of inappropriate computer usage.
6. BCSD may remove a user's access to the network without notice at any time if the user is engaged in any unauthorized activity.

XI. ALTERNATIVE INSTRUCTION

When a student of compulsory attendance age is removed from class by a teacher and suspended from school pursuant to Education Law section 3214, the District will take immediate steps to provide alternative means of instruction for the student.

XII. DISCIPLINE OF STUDENTS WITH DISABILITIES

The Board of Education recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. The Board also recognizes that students with disabilities are entitled to certain procedural protections whenever school authorities intend to impose discipline upon them. The Board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

This Code of Conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

A. AUTHORIZED SUSPENSIONS OR REMOVALS OF STUDENTS WITH DISABILITIES

1. For the purposes of this section of the Code of Conduct, the following definitions apply:

A "student with a disability" means a student who falls within one of the classifications set forth in the Individuals with Disabilities Education Act (IDEA) and section 200.1(zz) of the Commissioner of Education regulations, and who, because of such classification, needs special education or related services.

A "suspension" means a suspension pursuant to Education Law section 3214.

A "removal" means a removal for disciplinary reasons from the student's current educational placement other than a suspension and change in placement to an interim alternative educational setting (IAES) ordered by an impartial hearing officer because the student poses a risk of harm to himself/herself or others.

An "IAES" means a temporary educational placement for a period of up to 45 days, other than the student's current placement at the time the behavior precipitating the IAES placement occurred, that enables the student to continue to progress in the general curriculum, although in another setting, to continue to receive those services and modifications, including those described on the student's current individualized education program (IEP), that will enable the student to meet the goals set out in such IEP, and include services and modifications to address the behavior which precipitated the IAES placement that are designed to prevent the behavior from recurring.

2. School personnel may order the suspension or removal of a student with a disability from his or her current educational placement as follows:
 - a. The Board, the District (BOCES) Superintendent of Schools or a Building Administrator delegated the authority to suspend students may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a student without a disability would be subject to suspension for the same behavior.
 - b. The Superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for up to ten (10) consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior, if the Superintendent determines that the student has engaged in behavior that warrants a suspension and the suspension or removal does not exceed the amount of time a student without a disability would be subject to suspension for the same behavior.
 - c. The Superintendent may order additional suspensions of not more than ten (10) consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement.
 - d. The Superintendent may order the placement of a student with a disability in an IAES to be determined by the committee on special education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 days, if the

student carries or possesses a weapon to school or to a school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function, or has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function.

- 1) "Weapon" means the same as "dangerous weapon" under 18 U.S.C. Section 930 (g)(w) which includes "a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except... (for) a pocket knife with a blade of less than 2 1/2 inches in length".
 - 2) "Controlled substance" means a drug or other substance identified in certain provisions of the federal Control Substances Act specified in both federal and state law and regulations applicable to this policy.
 - 3) "Illegal drugs" means a controlled substance except for those legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.
 - 4) "Serious bodily injury" means bodily injury which involves a substantial risk of death, extreme physical pain, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ, or mental faculty.
3. Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student with a disability in IAES setting for up to 45 days at a time, if maintaining the student in his or her current educational placement poses a risk of harm to the student or others.

B. CHANGE OF PLACEMENT RULE

1. A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:
 - a. for more than ten (10) consecutive school days; or
 - b. for a period of ten (10) consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than ten (10) school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the student is removed and the proximity of the suspensions or removals to one another.
2. School personnel may not suspend or remove a student with disabilities if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal.

However, the District may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if the CSE has determined that the behavior was not a manifestation of the student's disability, or the student is placed in an IAES for behavior involving weapons, illegal drugs or controlled substances, or for inflicting serious bodily harm.

C. SPECIAL RULES REGARDING THE SUSPENSION OR REMOVAL OF STUDENTS WITH DISABILITIES.

1. The District's Committee on Special Education shall:
 - a. Whenever the District is first suspending or removing a student with a disability for more than ten (10) school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, conduct a review of the relationship between the student's disability and the behavior subject to disciplinary action to determine if the conduct is a manifestation of the disability. Such review must be made as immediate as possible, but in no case later than ten (10) school days after:
 - 1) a decision is made by the Superintendent to change the placement of a student to an IAES; or
 - 2) a decision is made by an impartial hearing officer to place a student in an IAES; or

- 3) a decision is made by the Board of Education, Building Administrator or Superintendent to impose a suspension that constitutes a disciplinary change in placement.
 - b. Conduct a functional behavioral assessment to determine why a student engages in a particular behavior, and develop or review a behavioral intervention plan whenever the District is first suspending or removing a student with a disability for more than ten (10) school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving weapons, illegal drugs or controlled substances.
 - c. If a behavioral intervention plan has already been developed, meet to review such plan and its implementation and modify the plan and its implementation as necessary, to address the behavior that resulted in the change in placement.
2. The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for special education services at the time of misconduct, shall have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the District is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the District is deemed to have had such knowledge before the behavior occurred, the student will be considered a student presumed to have a disability for discipline purposes.
 - a. The Superintendent, Building Administrator or other school official imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability.
 - b. A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the District had knowledge the student was a student with a disability, the District either:
 - (1) conducted an individual evaluation and determined that the student is not a student with a disability, or
 - (2) determined that an evaluation was not necessary and provided notice to the parents of such determination, in the manner required by applicable law and regulations.

If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engages in comparable behaviors.

However, if a request for an individual evaluation is made while such non-disabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable federal and state law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the District, which can include suspension.

3. The District shall provide parents with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his/her current educational setting poses a risk of harm to the student or others; or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement. The procedural safeguards notice prescribed by the Commissioner of Education shall accompany the notice of disciplinary removal.
4. The parents of a student with disabilities subject to a suspension of five consecutive school days or less shall be provided with the same opportunity for an informal conference available to parents of non-disabled students under the Education Law.
5. Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension of more than five (5) school days shall be bifurcated into a guilt phase and a penalty phase in accordance with the procedures set forth in the Regulations of the Commissioner of Education incorporated into this policy.
6. The removal of a student with disabilities other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than ten (10)

consecutive days or for a period that would result in a disciplinary change in placement, unless the CSE has determined that the behavior is not a manifestation of the student's disability.

7. During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided services as required by the Regulations of the Commissioner of Education incorporated into this policy.

D. EXPEDITED DUE PROCESS HEARINGS

1. An expedited due process hearing shall be conducted in the manner specified by the Regulations of the Commissioner of Education incorporated into this Code, if:
 - a. The District requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in his or her current educational placement, or during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his or her current educational placement during such proceedings.
 - b. The parent requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.
 - 1) During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving weapons, illegal drugs or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents and the District agree otherwise.
 - 2) If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.
2. An expedited due process hearing shall be completed within 15 business days of receipt of the request for a hearing. Although the impartial hearing officer may grant specific extensions of such time period, he or she must mail a written decision to the District and the parents within five business days after the last hearing date, and in no event later than 45 calendar days after receipt of the request for a hearing, without exceptions or extension.

E. REFERRAL TO LAW ENFORCEMENT AND JUDICIAL AUTHORITIES

In accordance with the provisions of the IDEA and its implementing regulations:

1. The District may report a crime committed by a student with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
2. The Superintendent shall ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to whom a crime is reported.

XIII. CORPORAL PUNISHMENT

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment of any student by any District employee is strictly forbidden.

However, in situations where alternative procedures and methods that do not involve the use of physical force cannot reasonably be used, reasonable physical force may be used to:

1. Protect oneself, another student, teacher or any person from physical injury.
2. Protect the property of the school or others.
3. Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school District functions, powers and duties, if that student has refused to refrain from further disruptive acts.

Such emergency interventions shall only be used in situations where alternative procedures and methods not involving the use of reasonable physical force cannot reasonably be employed. Emergency interventions shall not be used as a punishment or as a substitute for systematic behavioral interventions that are designed to change, replace, modify or eliminate a targeted behavior.

In situations when a school employee uses physical force against a student, the school employee shall, make an immediate verbal report of the situation to the Building Principal or Supervisor/designee with the written report to follow within forty-eight (48) hours. The Building Principal or Supervisor/designee shall, within the same school day, make an immediate verbal report to the Superintendent/designee describing in detail the circumstances and the nature of the action taken with the written report to follow within forty-eight (48) hours.

The School District will maintain documentation on the use of emergency interventions for each student including:

- a) Name and date of birth of student;
- b) Setting, location, date and time of the incident;
- c) Name of staff or other persons involved;
- d) Description of the incident and emergency intervention used, including duration;
- e) A statement as to whether the student has a current behavioral intervention plan; and
- f) Details of any injuries sustained by the student or others, including staff, as a result of the incident.

This documentation will be reviewed by School District supervisory personnel and, if necessary, by the school nurse or other medical personnel.

The District will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with Commissioner's Regulations.

XIV. STUDENT SEARCHES AND INTERROGATIONS

The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the District Code of Conduct. Students are not entitled to any sort of "Miranda" type warning before being questioned by school officials, nor are school officials required to contact a student's parent before questioning the student.

In addition, the Board authorizes when appropriate, the Superintendent, Building Administrators, School Resource Officer, School Nurse, District Security officials to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the District Code of Conduct. An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the school official has a legitimate reason for the very limited search.

Before searching a student or the student's belongings, the authorized school official should attempt to get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.

Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

A. Student Lockers, Desks and other School Storage Places

Students may be assigned lockers in which they are allowed to store their personal property. These lockers are school property and can be inspected or searched at any time. While students are assigned a lock or combination, this lock is for the purpose of protecting the students' property and does not create an expectation of privacy. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks and other school storage places remain school District property and are subject to inspection and search at any time by school officials, without prior notice to students and without their consent.

B. Police Involvement in Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Any

representative of an outside agency must have permission of the building principal or designee before interviewing a student. Such permission will be in accordance with established procedures.

Police officials may not have access to a student for questioning about a crime alleged to have been committed by the student unless they meet one of the following criteria:

1. They have a warrant for the student's arrest; or other court order authorizing the student's removal; or
2. They have probable cause to believe a crime has been committed by the student on school property or at a school function, or
3. They have been requested by school officials to investigate a reported or suspected crime.

Before police officials, not including the School Resource Officer are permitted to questions or search any student, who is suspected of committing a crime the Building Administrators shall first try to notify the student's parent to give the parent the opportunity to be present during the police questioning or search. If the student's parent cannot be contacted prior to the police questions or search, the parent shall be informed of the questioning or search, in writing, by the Building Administrators as soon as thereafter as possible. The Building Administrators will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

1. They must be informed of their legal rights.
2. They may remain silent if they so desire.
3. They may request the presence of an attorney.

C. Child Protective Services Investigations

Consistent with the District's commitment to keep students safe from harm and the obligation of school officials to report to child protective services (CPS) when they have reasonable cause to suspect that a student has been abused or maltreated, the District will cooperate with local CPS workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations.

Child Protective Services personnel shall be assisted by school Building Administrators to fulfill their mandated responsibilities. If there is suspected abuse or maltreatment, the school authorities shall permit the student to be interviewed on school property by the CPS caseworker. Such interviews shall be conducted in the presence of a school Building Administrator or qualified designee when appropriate. In those cases where CPS determines that the student is in imminent danger, and a Family Court application is not possible, they have the authority to take the student into protective custody without the consent of the student's parent.

XV. VISITORS TO THE SCHOOLS

The Board encourages parents and other District citizens to visit the District's schools and classrooms to observe the work of students, teachers and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The Building Administrator/Principal is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

1. Anyone who is not a regular staff member or student of the school will be considered a "visitor".
2. All visitors to the school must report to the office of the Principal upon arrival at the school. There they will be required to sign the visitor's register and will be issued a visitor's identification badge, which must be worn at all times while in the school or on school grounds. The visitor must return the identification badge to the Principal's office before leaving the building.
3. Visitors attending school functions that are open to the public after normal school hours such as parent-teacher organization meetings or public gatherings are not required to register.
4. Parents or citizens who wish to observe a classroom while school is in session are required to arrange such visits in advance with the Building Administrator, so that class disruption is kept to a minimum.
5. Teachers are expected not to take class time to discuss individual matters with visitors.
6. Any unauthorized person on school property will be reported to the Building Administrator. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.

7. All visitors are expected to abide by the rules for public conduct on school property contained in this Code of Conduct.
